

Physics Teaching in Schools Module

WEEKLY LOG SHEET 1

Student name: Josh Wainwright

Placement School: King Edward Five Ways School

Teacher contact name: Mr. D Cottle

Teacher contact Tel: 01214753535

Teacher contact e-mail: dcottle@kefw.org

Week from 7th Jan 2013 **to** 13th Jan 2013

What have you done?

- School has CPD day on the first session (7th Jan 2013) so i was not on site in the school
- Instead started to plan the placement project, itemising possible projects and examining feasibility of each.
- Familiarised myself with school policy and vision statement via the School Handbook and website.

What have you learnt?

- The possibilities for the project are very wide and so there is a good opportunity to contribute to the learning of the students. I have decided to engage in a project that will allow me to help the students, and where possible the teachers, of the school.
- Also, the school handbook gives a small insight into the workings and technicalities of almost every aspect of the school procedure, something i think few pupils are aware of. The government policies, such as health and safety have the ability to be burdensome, but can be used to enrich the school life if used efficiently.

Outline any problems encountered:

- None encountered so far.

How did you meet last week's objectives?

- No previous objectives to meet.

What are your objectives for the coming week?

- Familiarise myself with the school, teacher and classes that I shall be working with. Get to know the needs and requirements of the age groups that I shall be working with.
- Assit in the classroom wherever possible and lookout for oportunities to help above the tasks specifically set.
